Dear Folks

This letter comes to you to urge that you grant petition 98P-0151/CPI and prohibit the slaughter of downed animals.

It is time that we treated these creatures humanely. Well you know that they have been treated like objects, moved via heavy equipment and chains suffering horror and broken bones - these creatures who experience pain just as we do.

Prohibiting the marketing of downed animals will cause no calculable economic hardship.

For the concerns your agency has been charged with, insuring public health you can understand that these poor sick creatures should not be entering the human food chain.

Please give this matter the attention it deserves.

Yours truly,

Debbie Kahn
